SUMMER 2019 TRENDS SHEET

MIXED METALS

Why settle for just one when you can have it all? Variety is the spice of life and we are giving you variations of classic silhouettes and colour pairings with a modern spin.

As mentioned in the WGSN Fall '19 fashion forecast; 'a new approach to the vintage aesthetic has jewellery being pulled together in a mixture of metal colours and textures in layered styling.'

As timeless as it is current and fresh, mixed metals will bring the best of both worlds into your life!

BLING

Don't be afraid to add some sparkle to your life! No matter your preferred level of bling, our range will have the perfect watch to compliment your sparkling personality and style.

Our full bling LADY FRONTIER has been amped up this season with the addition of a two-tone style that is sure to grab the attention of everyone in the room. New addition, GEMINI has stolen our hearts with a new approach to Glam-ification. With beautifully considered placement of crystal details in the dial, bezel and lug, this style will really make you shine!

G-OLGY

Elevate your style with some added G-ology; The art of the iconic Guess logo. Classic yet modern, our signature logos are timeless.

The Quattro-G makes a serious statement this season, showcasing bold contrast and precise printing on a new mesh silhouette with CLAUDIA, and with ANNA - a more subtle and delicate example of Quattro-G embellishment through the bracelet, with a bold statement logo execution on the dial. Our best selling Tri-Glitz silhouette is complimented by a brand new colour extension, with striking black and gold contrast on a black denim strap, and Micro G-Twist starts to shine with the addition of a full glitz bezel.

Fresh updates to signature styles, coupled with new looks accentuating our logo aesthetics take this logo story to the next level. Whatever the personal style is, our dedicated GUESS consumers will LIVE, LOVE, LOGO!

LEGACY

With several versions of LEGACY at the top of the global best seller list, this is a signature silhouette that is continuing to grow in importance for the GUESS guy. Throughout the season, our signature blue & rose, and black & gold combinations with silicone straps will feature in communication to our male consumer, making this the must have style for the season. In addition, we introduce LEGACY on a full stainless steel bracelet in yellow gold plating with black dial for the guy who really wants to stand out from the crowd. LONG, LIVE, LEGACY!

WHY IS MERCHANDISING SO IMPORTANT?

Merchandising is one of our last touch points with the consumer. This is our 'home' and is our chance to leave a positive and lasting impression.

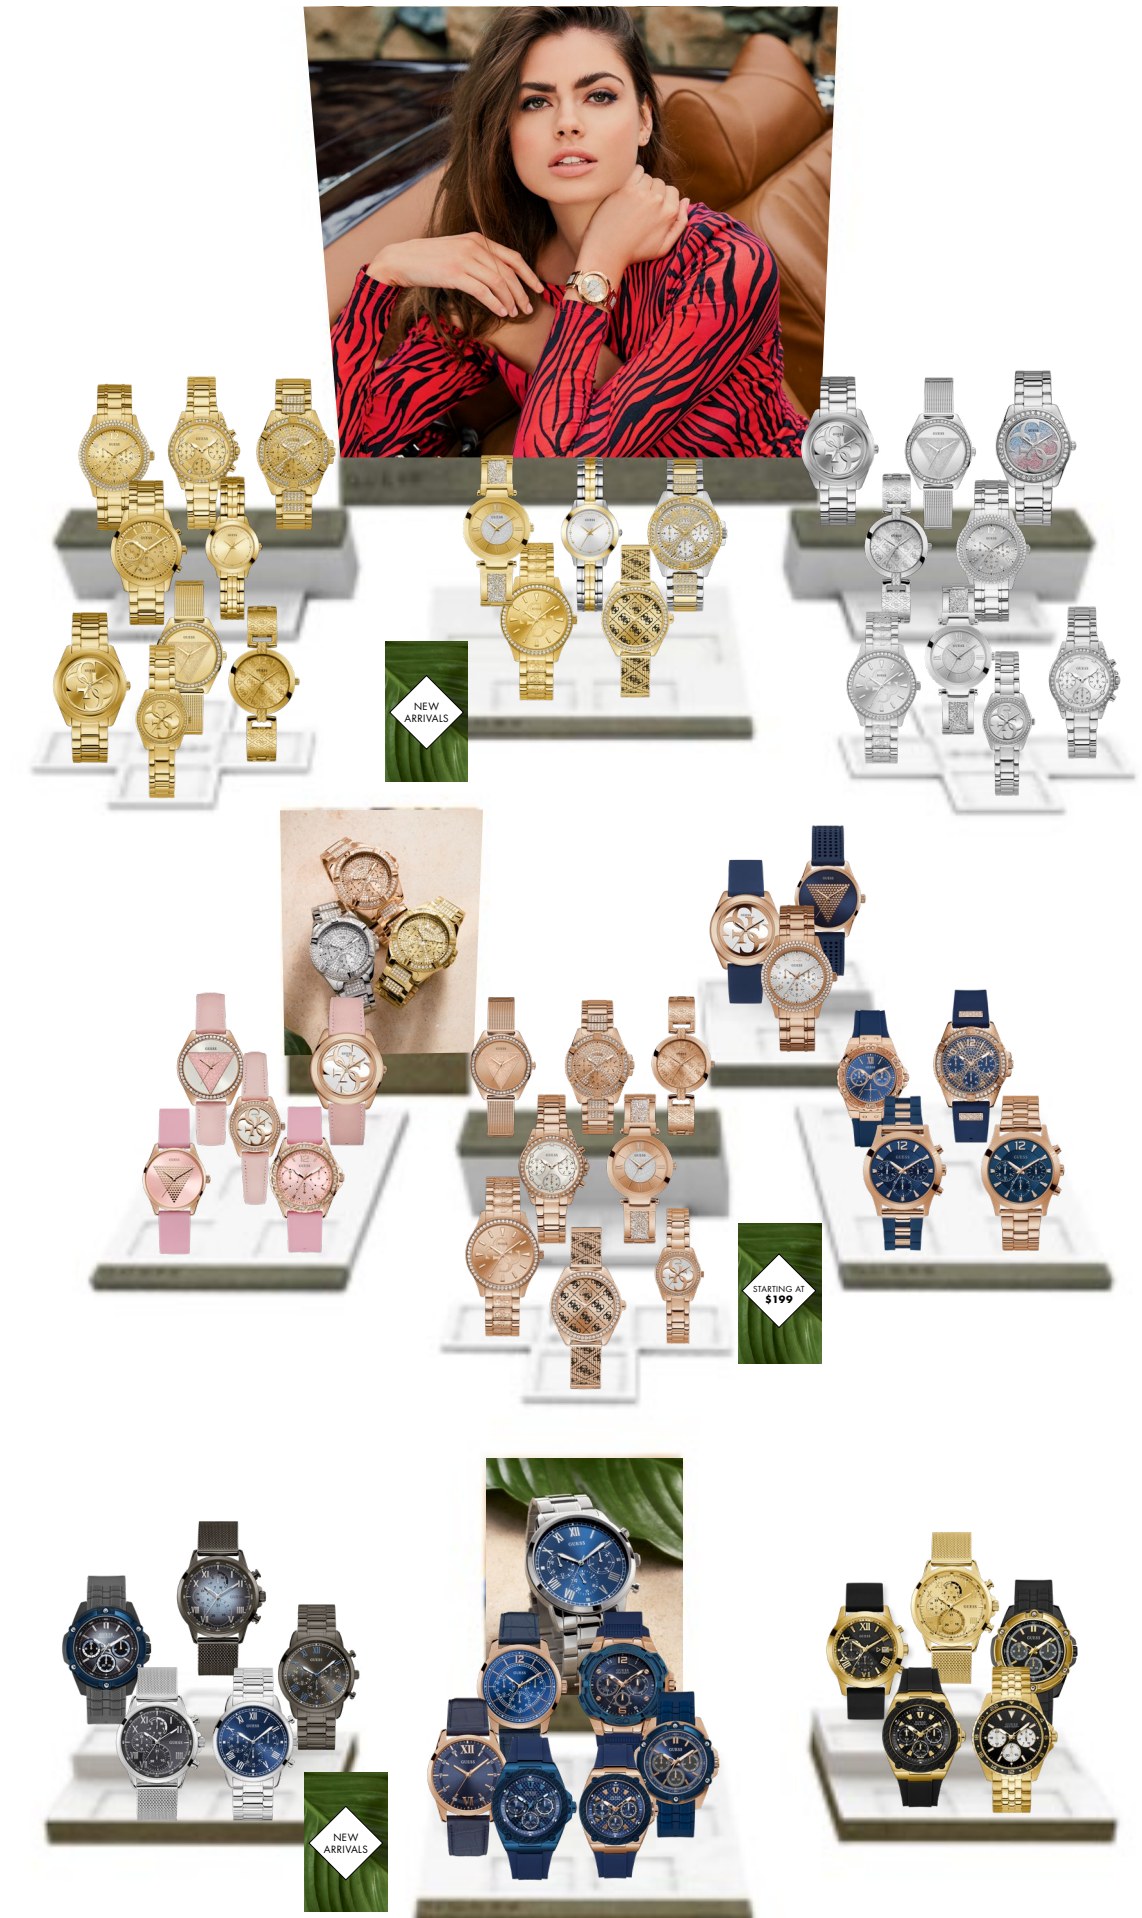

Merchandising done properly can serve as a 'silent sales person' by:

- Increasing brand awareness
- Improve brand presence in stores
- Aids in gathering selling information, increases sales and,
- Ensures BRAND INTEGRITY

WHAT IS THE KEY TO SUCCESSFUL MERCHANDISING?

- Tell a story about the key product lines for the season
- Create visual balance
- Keep it simple

The consumer needs to understand the key story you want to tell in the few seconds it takes to walk by the display. These basic principles will ensure success every time!

BASIC VISUAL RULES

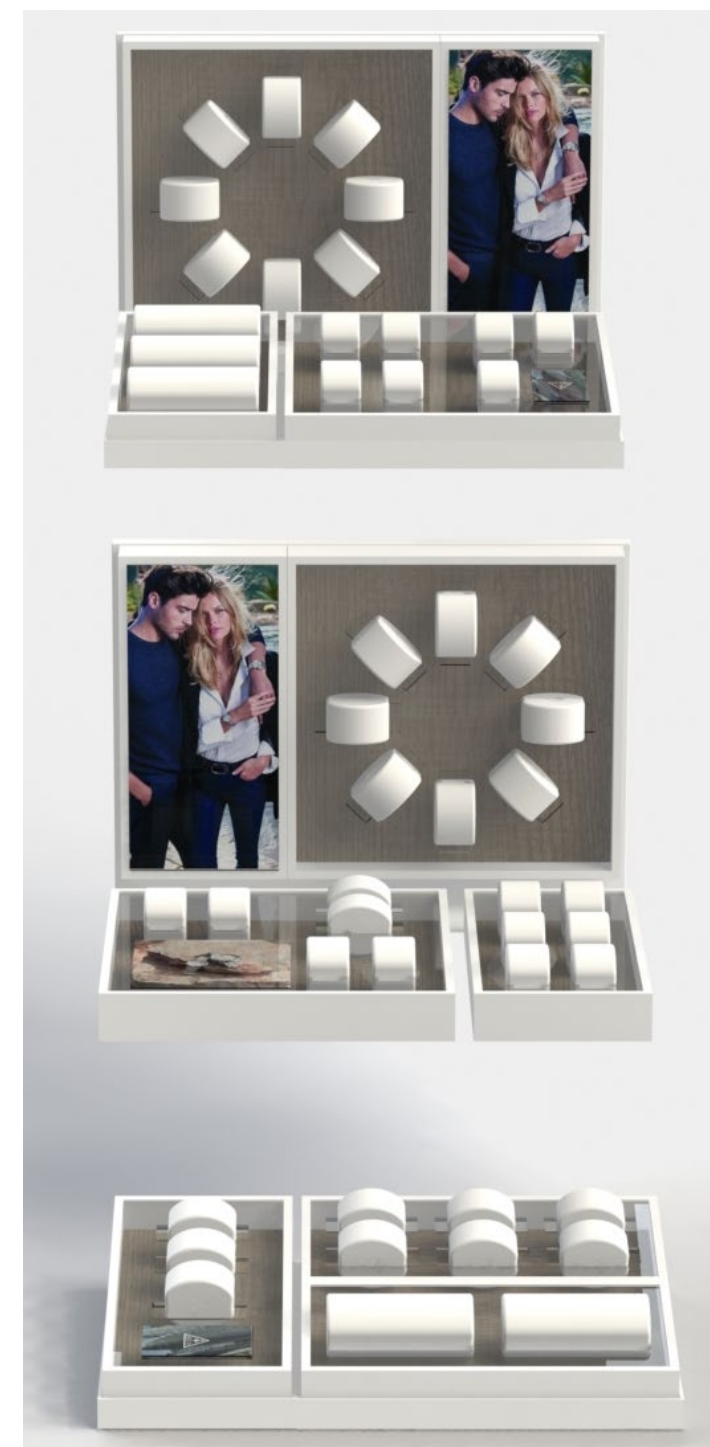

There are basic merchandising guidelines that will help you create a visually impactful display:

- Always create a centre focus to tell the key product story of the season
i.e **BLACK GOLD For Men OR ICONIC LOGO For Ladies**
- Group each of your product/colour stories together to make a statement. Always colour block first, and then block by case shape/occasion (eg Ladies Casual styles group together, Ladies Dress styles together).
- Visually split your display. Design the middle to create focus, and then evenly distribute the rest of the display to each side. Create an exact reflection if possible.
- Men's watches should always be on a separate dedicated display where possible. If it is required on one display with the ladies, ensure it is merchandised to one side, supported by current season collateral.
- Separate clearance styles to one side of the display.
- Place larger case sized watches to the back, smaller faces to the front of the display.
- Display should follow a descending structure, with height created at the back using the tallest blocks, and working forwards in the display, finishing on the flattest blocks.
- All watch blocks must be positioned straight, facing the front of the display, and all watch faces must be angled the same across the entire display.

The new GUESS display program is designed to allow GUESS WATCHES to stand out from the crowd. The new display is designed to supercede the existing display - components of this display are not to be intermingled with the existing display concept.

This concept is a significant change to what you may be used to from the GUESS brand, so if you need assistance determining what is the right combination of materials for your store, and to check availability, please do not hesitate to reach out to your merchandiser or our Sales Support team at sales.orders@designa.com.au or on **+61 2 8543 4600**.
