## ABOUT US

Every watch has a soul and a story to be told.

Ours comes from a relentless pursuit of craftsmanship, quality and design. In 1854, we combined European clockmaking and American ingenuity to take clocks from the mantels of the 1% and brought them to the world.

Guided by generations of craftsmanship, we engineer, design and build each Timex to our legendary standards of durability.

Designed in Milan under the direction of Giorgio Galli, every Timex starts with a careful consideration of our legacy and a passion to blaze forward. There's no one alive who knows what makes Timex tick better than Giorgio.

We take pride in making watches that last a lifetime (and then some). For 170 years, we've been redefining what it means to be watchmakers, constantly in pursuit of a better tomorrow. With our planet in mind, we are proud pioneers in making timeless watches that are environmentally-friendly, beautifully crafted and can take a licking and keep on ticking
